

COMING EVENTS.

The Louisiana Lottery Company is now one of the greatest corporations on earth, and like all corporations it has a human desire to get even on its enemies.

Wanamaker was the man at the bottom of the anti-lottery law, and they got even by withdrawing \$7,000,000 from the banks when Wanamaker wanted to borrow. He was badly cinched by the operation, and the Lottery Company are now even.

A Republican Congress passed the anti-lottery bill, directing its batteries of reform against the mildest form of gambling known, while it never laid a finger on the robbing gambling games carried on by Jay Gould and the like, railroad share gambling, the turf and the mining security gambles, which fleece the community year after year.

The last elections have returned a Democratic Congress, and the Democratic Congress will repeal the anti-lottery law on condition that the Louisiana Company will put \$10,000,000 into the Presidential campaign of 1892.

This is the outline of a conspiracy now on foot, and the events of the next two years will demonstrate to the most casual observer that such an attempt will be made.

NEVADA AND THE WORLD'S FAIR.

The following is from the Genoa Courier:

The question has been asked, What is Nevada going to do at the World's Fair? Commissioner J. W. Haines, who departed for Chicago Wednesday, being interviewed on the subject, made suggestions from which the following is noted:

Mr. Haines says that Nevada should erect a quartz mill at Chicago at a probable cost of \$10,000. Senator Stewart states that the coming Legislature will unquestionably make an appropriation for this purpose. At the Sentennial in Philadelphia, Nevada erected a quartz mill of which the late Governor Stevenson was Superintendent. The assay value was paid for quartz to keep the mill running and by special act of Congress the bullion was sent to the U. S. Mint and worked into centennial medals and sold at \$2 each. By this means the little mill paid expenses. It was one of the chief attractions of the centennial.

Mr. Haines also refers to our mountains of sulphur and the huge block of transparent salt from which an attractive display could be made. He suggests that the Legislature pass an act permitting the mineral cabinet presented to the State by the Pioneers of the Pacific Coast in 1887, to be taken to Chicago.

Nevada can beat the world for potatoes and in cereals she can make a showing of which her people may be proud. This calls to mind the fact that Smith Valley wheat took the premium at the New Orleans Exposition. Commissioner Haines intends exhibiting a sample of wheat at the World's Fair which will be the product of his ranch in the suburbs of Genoa. Our State produces fine apples but our fruits will come in rather late in the season to be exhibited to advantage.

Here is an opportunity for the State Board of Trade to do something for Nevada. The Commission should receive the co-operation of every citizen and organization in the State.

Professor Koch, of Berlin, who claims to have discovered a method for the cure of consumption, has asked to be relieved from some of his University duties, in order that he may have more time to pursue his experiments. It induces greater faith in his claims to find him adopting this course, instead of making boasts which might afterward prove to have been premature and not well founded.

TENTH

Anniversary Ball
OF
Ormsby Lodge No 4, A O U W
ON

THE MANHATTAN

Life Insurance Co.,

OF NEW YORK.

ASSETS - - \$12,000,000.

BETTER THAN A

GOVERNMENT BOND.

The MANHATTAN for a limited period will offer the residents of Nevada a Bond Combining Insurance and investment that is in reach of all and which every healthy able-bodied man in the State should possess—for the protection of himself and family.

In explanation read what follows: Suppose a special agent of the U. S. Treasury Department should call on you today and say:

The Government would like to sell you bonds for any amount between \$1,000 and \$30,000 and if it is not convenient for you to make the investment at once, we will allow you to pay for the bonds in

Ten Equal Annual Installments.

And, suppose, in addition to this, the Government, wishing to make this the most desirable investment in the world, should stipulate in the bond, not only to pay them at the end of the term, but in case of your previous death, to pay them to your family and AT THE SAME TIME RELEASE YOUR FAMILY FROM PAYING ANY FURTHER MONEY.

Would you not at once close with such an offer? And yet this is practically what the Manhattan Life Insurance Company, of New York has done and is doing.

For a full explanation of this plan, address, giving your full name, address, occupation and age,
